## Proposal Text

### [Gauntlet] Supply Cap Recommendations (01/29/25)

## Checks

### Optimism Changes

**Reports all simulation failures from the proposal**  **Passed**

**Info:**

Optimism simulation was successful

**Check all targets are present in the registry**  **Passed**

**Info:**

- [0x84E93EC6170ED630f5ebD89A1AAE72d4F63f2713](#) : Configurator
- [0x24D86Da09C4Dd64e50dB7501b0f695d030f397aF](#) : CometProxyAdmin

**Reports all state changes from the proposal**  **Passed**

**Info:**

|-------------------------------------------------------------------------------------|------------------------------------------|
|    | Add or create operation                  |
|   | Delete or remove operation               |
|  | Convert or swap assets operation         |
|  | Execute an action or call                |
|  | Pause or stop operation                  |
|  | Unpause or resume operation              |
|  | Update or change operation               |
|  | Money related operation                  |
|  | Bridge assets between networks           |
|  | Requires attention or review             |
|  | Value is within the acceptable threshold |
|  | Value slightly above the threshold       |
|  | Value critically above the threshold     |

### Optimism Actions:

-  Update the SupplyCap of [WETH](#) via [Configurator](#) for token - [rETH](#)

**Changes:** Update from 5000 to 5000 (It remains the same)

**Raw Changes:** Update from 50000000000000000000 to 50000000000000000000 for token - 0x9Bcef72be871e61ED4fBbc7630889beE758eb81D

-  Update the SupplyCap of [WETH](#) via [Configurator](#) for token - [wrsETH](#)

**Changes:** Update from 1400 to 1400 (It remains the same)

**Raw Changes:** Update from 14000000000000000000 to 14000000000000000000 for token - 0x87eEE96D50Fb761AD85B1c982d28A042169d61b1

3.  Deploy and upgrade new implementation for [WETH](#) via [Configurator](#).
